

Guide to *artlook* data

Schools and partner organizations provide data every year on *artlook*. Some of that information is available publicly on *artlook* Map. Other data points are reserved for internal use by [Ingenuity](#), the [Regional Arts and Culture Council](#), [Portland Public Schools \(PPS\)](#), other local school districts and stakeholders in order to enable data-driven decision making about arts education policy in Portland.

How we use the data

Arts education data collected on *artlook* is used to:

- Inform **district and city policy** to support arts instructors courses, funding, resources, and programming
- Capture **growth**, and identify **systemic gaps**, in access to high-quality arts education
- Drive **partnerships** with partner organizations rooted in equity, sustainability, and quality instruction
- Provide **strategic insights** for grantmaking in the arts and research on arts education in Portland

Schools

The following pieces of data collected from schools are made public on schools' *artlook* profiles:

- Arts Liaison contact information
- Arts instructor names and discipline*
- Arts courses names, enrollment, and disciplines
- Instruction: average minutes, % of students with access (elementary/middle schools)*
- Programs offered and school program/resource/discipline interests
- Partnerships with outside arts organizations**
- Availability of arts-specific professional learning (school staff) and community events

*The following pieces of data are not made public, but are used by Ingenuity and PPS to inform school policy:

- Arts instructor email addresses (with the exception of the school's Arts Liaison)
- Arts budget and sources of funding
- Master schedule type and details
- School building space dedicated to the arts

Partners

All partner portal questions are optional. If provided, the following data is displayed on partners' *artlook* profiles:

- Organization mission, logo, and artistic disciplines
- Contact information: phone number, website, address, and primary education contact
- Programming: Program names, descriptions, grades served, and primary outcomes
- Partnerships with PPS schools**

Partners can also provide contact information of their executive director; this information is not displayed publicly but may be used by Ingenuity to share information about resources, grants, and professional learning opportunities.

** Partnerships can be reported either by schools or partner organizations; they will display on both profiles.
